Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is in response to correspondence filed on May 23, 2005. Applicant originally filed Claims 1-32. Applicant previously amended Claim 3, 5, 6, 8, 16, 17, 20-21, 27, 30, and 31. Presently pending claims are 1-32.

In view of the Appeal Brief filed on May 23, 2005, PROSECUTION IS HEREBY REOPENED. A new ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Response to Arguments

Applicant's arguments with respect to claim 1-32 have been considered but are moot in view of the new ground(s) of rejection.

Election/Restrictions

Restriction to one of the following inventions is required under 35 USC 121 :

- I. Claims 1-29, and 32, drawn to a subject matter which permits use of the radiotelephone system only by an authorized subscriber or transceiver, classified in class 455, subclass 411
“Privacy, lock-out, or authentication”
- II. Claim 30, and 31, drawn to a subject matter wherein the integral unit includes information to attest to the integrity of the data transferred, classified in class 713, subclass 161 “Data authentication”.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and that the subcombination has utility by itself or in other combinations (MPEP 5 806.05(c)).

In the instant case, the combination I as claimed does not require the particulars of the subcombinations II, as claimed because any particular communication authentication technique can be used. The subcombination II has separate utility such as allowing distributing data by proper authorization of a device or validity of a record for operating a device.

Art Unit: 2131

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Syed Zia whose telephone number is 571-272-3798. The examiner can normally be reached on 9:00 to 5:00.
